

von Maryam Safi, Caroline Wolf, Jan Jessen und Malte Saupe

Mit dem Morse Messenger könnt ihr Nachrichten von einem Smartphone an ein anderes per Morse-Lichtzeichen senden.

- Verbindet euch dafür in der App per Bluetooth mit Morse oder Morse2.
- Gebt euren Namen ein, damit euer/eure Chatpartner/in weiß, wer ihr seid.
- Stellt eine Übertragungsgeschwindigkeit für die Morse-Zeichen ein.
- Wechselt in den Chat und fangt an zu schreiben.

Viel Spaß!
